WALKER FLIELLER
WEB DEVELOPER

👤 ABOUT

My name is Walker Flieller and I am a full stack web developer currently living in Austin, Texas. I am a recent graduate of the Web Development Immersive course offered by General Assembly at their Austin Campus. Before taking the course I was a student/entrepreneur focusing in Business Development and Administration. While working on my Businesses I became fascinated by the advancements of modern and future tech and decided to make the plunge into the development world myself. This has been one of the best decisions I have ever made, and I haven't looked back since. What I may lack in skill, I make up in ambition, discipline and passion. I am a lifelong learner and am constantly trying to become the best at all that I do.

💼 WORK EXPERIENCE

CareerFoundry
🌐 http://careerfoundry.com
August 2015 – Present

Web Developer Course Mentor
CareerFoundry is the world's first career accelerator for vocational tech skills. By building online programs delivered by expert mentors, they aim to bring complete beginners up to employable standards in technology. I mentor students that are enrolled in the web developer course in languages such as HTML, CSS, Javascript, jQuery, Ruby, Ruby on Rails, and other frameworks/libraries.

Vurv Collective
🌐 http://vurv.co
March 2014 – Present

Co-Founder
vurv is a digitally oriented creative conduit, comprised of design practitioners whose work lives at the intersection of art, design and computation, based in Austin, Texas. I assisted in the original creation of the collective and the principles that it runs on today.

General Assembly
🌐 http://generalassemb.ly
May 2015 – July 2015

Web Developer in Training
General Assembly is an educational institution that transforms thinkers into creators through education in technology, business and design at fourteen campuses across four continents. An intensive course going over front end and back end application development and design. The skills I learned while in this program include but are not limited to: CLI, HTML, CSS, Javascript, jQuery, Javascript Objects, Ruby, Object Oriented Programming, Data Modeling and Relationships, Relational Databases, Application Security, User Authentication, Ruby on Rails, APIs, Process of Software Development, Server Side Javascript & Advanced Javascript, Node.js, Non-Relational Databases, AJAX, Single Page Applications, Object Oriented Javascript, Test Driven Development, Designing an API, Front End Frameworks, Advanced Single Page Applications, Backbone.js, Mean Stack, Jenkins and more.

Nostalgix
May 2014 – May 2015

Co-Founder
Nostalgix merges individual memories with ultra-premium products through code and manufacturing innovation. I was in charge of forming the company, creating the business plan/model and recruiting.

The Preiss Company
🌐 http://tpco.com
February 2014 – July 2014

Sales and Leasing Associate
During my time here I was tasked with leasing apartments, creating marketing campaigns, constructing social events, and assisting with customer service issues.

Elizabeth Galic
May 2012 – June 2013

Personal Assistant
I assisted Mrs. Elizabeth Galic with her investments, business management, as well as a variety of daily tasks.

Tesoro, Refining and Marketing Corporation
🌐 http://tsocorp.com
May 2011 – August 2011

Credit Analyst, intern
During my time here I analyzed financial statements of potential/current customers, determined appropriate credit and allocation limits for new/current customers, assisted and observed in international trade relations, and created spreadsheet that allowed Tesoro to balance their credit and product allocation limits across their two separate systems; which maximized profits and eliminated unnecessary losses.

Campus Apartments
